

# Document Validation Report for **OCEANAI**

---

**Correspondence: No**  
**Percentages: 15.0%**

---

## **Conclusion:**

The repository provides model loading, feature extraction, and inference pipelines but lacks any scripts or modules for dataset loading, training loops, evaluation metrics, or result logging that would replicate the described experiments. Critical components (data preprocessing, metric computations, experiment orchestration) are missing, preventing reproduction of the reported results.
